Summer Abroad Programs

- Earn UCI units abroad
- Take advantage of Pay For Only 8 Incentive Program
- Coursework enhances your experience
- Itinerary of field trips and special events
- Build your resume while seeing the world
- Increase your self-confidence and independence
- Develop stronger personal goals and values
- No pre-requisites or foreign language requirements

Enrollment is first-come, first-served!

Global Internships Program - Gain professional work experience and a world view by interning in one of seven locations around the world while earning academic credit.

Environmental Studies Program in Bali - Complete up to five GE requirements in the epicenter of environmental change.

Public Health Program in Bali - An open air laboratory where modern and traditional practices intersect in a cultural and spiritual crossroads.

Community and Planetary Health and Sustainability Program in Guatemala - Engage with young sustainability leaders from different settings and develop the practical experience you will need to become an impactful leader in today's interconnected and interdependent world.

Summer Session will offer the Pay-for-Only 8 (unit fee cap) incentive for UC students again this summer! UC students who complete 8 units (including Summer Abroad courses) could enroll in additional units in Summer Session II, either on-campus or online, without paying additional course fees.

For information regarding the Environmental Studies in Bali, Public Health in Bali, and Community and Planetary Health and Sustainability in Guatemala Programs, please contact Laurie Fetters (lfecters@uci.edu). For information regarding the Global Internships Program, please contact Fatin Zubi (fzubi@uci.edu).
